Optimate

Optimize your management framework

... OptiBI provides the necessary insight.

You need to continuously extract the right data from Dynamics AX or D365FO. And present them to relevant employees in an easy-to-understand manner.

With OptiBI you can easily transform large amounts of data into decision support. So you have a solid foundation for managing your business activities.

With OptiBI you get:

Insight into your data

- > Your data is worth gold - provided it is transformed into information.
- > OptiBI provides overview and insight for you to make the right decisions.

Et fleksibelt BI-værktøj

- > Data can be presented in Power BI, Excel or your favorite viewing tool.
- > The solution is easy to customize when changes are needed.

A strong management base within 9 business areas

- > OptiBI provides insight within the framework of Dynamics AX and D365FO.

A solution where you get started in a few days.

- > OptiBI is equipped with standard setups based on best practice from a wide range of companies. This will get you started quickly.

Minimum software requirements

- > OptiBI simply assumes that you have Dynamics AX or D365FO, a SQL Server and the Office suite (2010 or later).

A different consulting house

We are called digital troubleshooters - and most call on us when the others who are immediately similar to us are waving the white flag and have given up. Because they maybe look like us, but there is a world of difference. We are a team of competent specialists. Focus is always on your business, goals and terms in building your solution.
