

Integrate your solutions

OptiGrator integrates your Dynamics AX and D365FC with other systems and data.

Optimate

Integration Framework

... that effectively integrates data flows to/from Dynamics AX and D365FO.

The interaction between your Dynamics AX or Dynamics 365 Finance and Operations (D365FO) and other solutions can be vital. By automating the exchange of data, you can save time on routine tasks. Avoid typos. And ensure your data flow - you can even monitor whether data is being sent and received correctly.

With OptiGrator you get:

Automated data flow

- > OptiGrator integrates data into and out of your Dynamics AX or D365FO. This creates an opportunity to streamline many business processes.

Monitored data streams

- > The solution monitors your integrations. This ensures that you do not lose important business information.

Data is easily validated

- > Setup controls whether data is automatically sent to the database. Non-valid data always stop in the OptiGrator draft. The responsible is advised.

A flexible system that is quickly implemented

- > Typically, the module and initial integrations can be running in a week.

Full tracking and history

- > All received files are saved. All processes are logged. And all updates in Dynamics AX and D365FO are documented in journals in OptiGrator.

An atypical consulting company

We are called digital troubleshooters - and most call on us when the others who are immediately similar to us are waving the white flag and have given up. Because they maybe look like us, but there is a world of difference. We are a team of competent specialists. Focus is always on your business, goals and terms in building your solution.
