

VIES for Dynamics AX & 365

OptiVIES - your tool for validating European VAT numbers.

Validation of EU VAT numbers

OptiVIES keeps you updated.

Your company is committed to ensure the validity of European customers VAT numbers. If you sell a service to a customer in the EU without a valid VAT number, VAT must be added to the invoice. OptiVIES automates the validation process in Dynamics AX and D365FO, so you can always document that validation has been done according to the rules.

With OptiVIES you get:

Continuous connection to EU server

- > The solution continuously connects to a server within EU, from which VAT numbers are validated in each country on an ongoing basis.

Warning for failure to validate

- > When you create an invoice in Dynamics AX or D365FO, you will receive a warning in that case that the number is not valid.

Full documentation

- > After validation, you receive a confirmation code that OptiVIES saves electronically, so that you can prove the validation at any time.

Valid VAT numbers - that save you money

- > OptiVIES ensures that you do not get an extra bill on VAT. Which happens, if you invoice a customer without a valid VAT number.

Work processes are automated

- > By automating the validation of EU VAT numbers, you do not have to remember to have it checked - OptiVIES secures you!

A different consulting house

We are called digital troubleshooters - and most call on us when the others who are immediately similar to us are waving the white flag and have given up. Because they maybe look like us, but there is a world of difference. We are a team of competent specialists. Focus is always on your business, goals and terms in building your solution.
